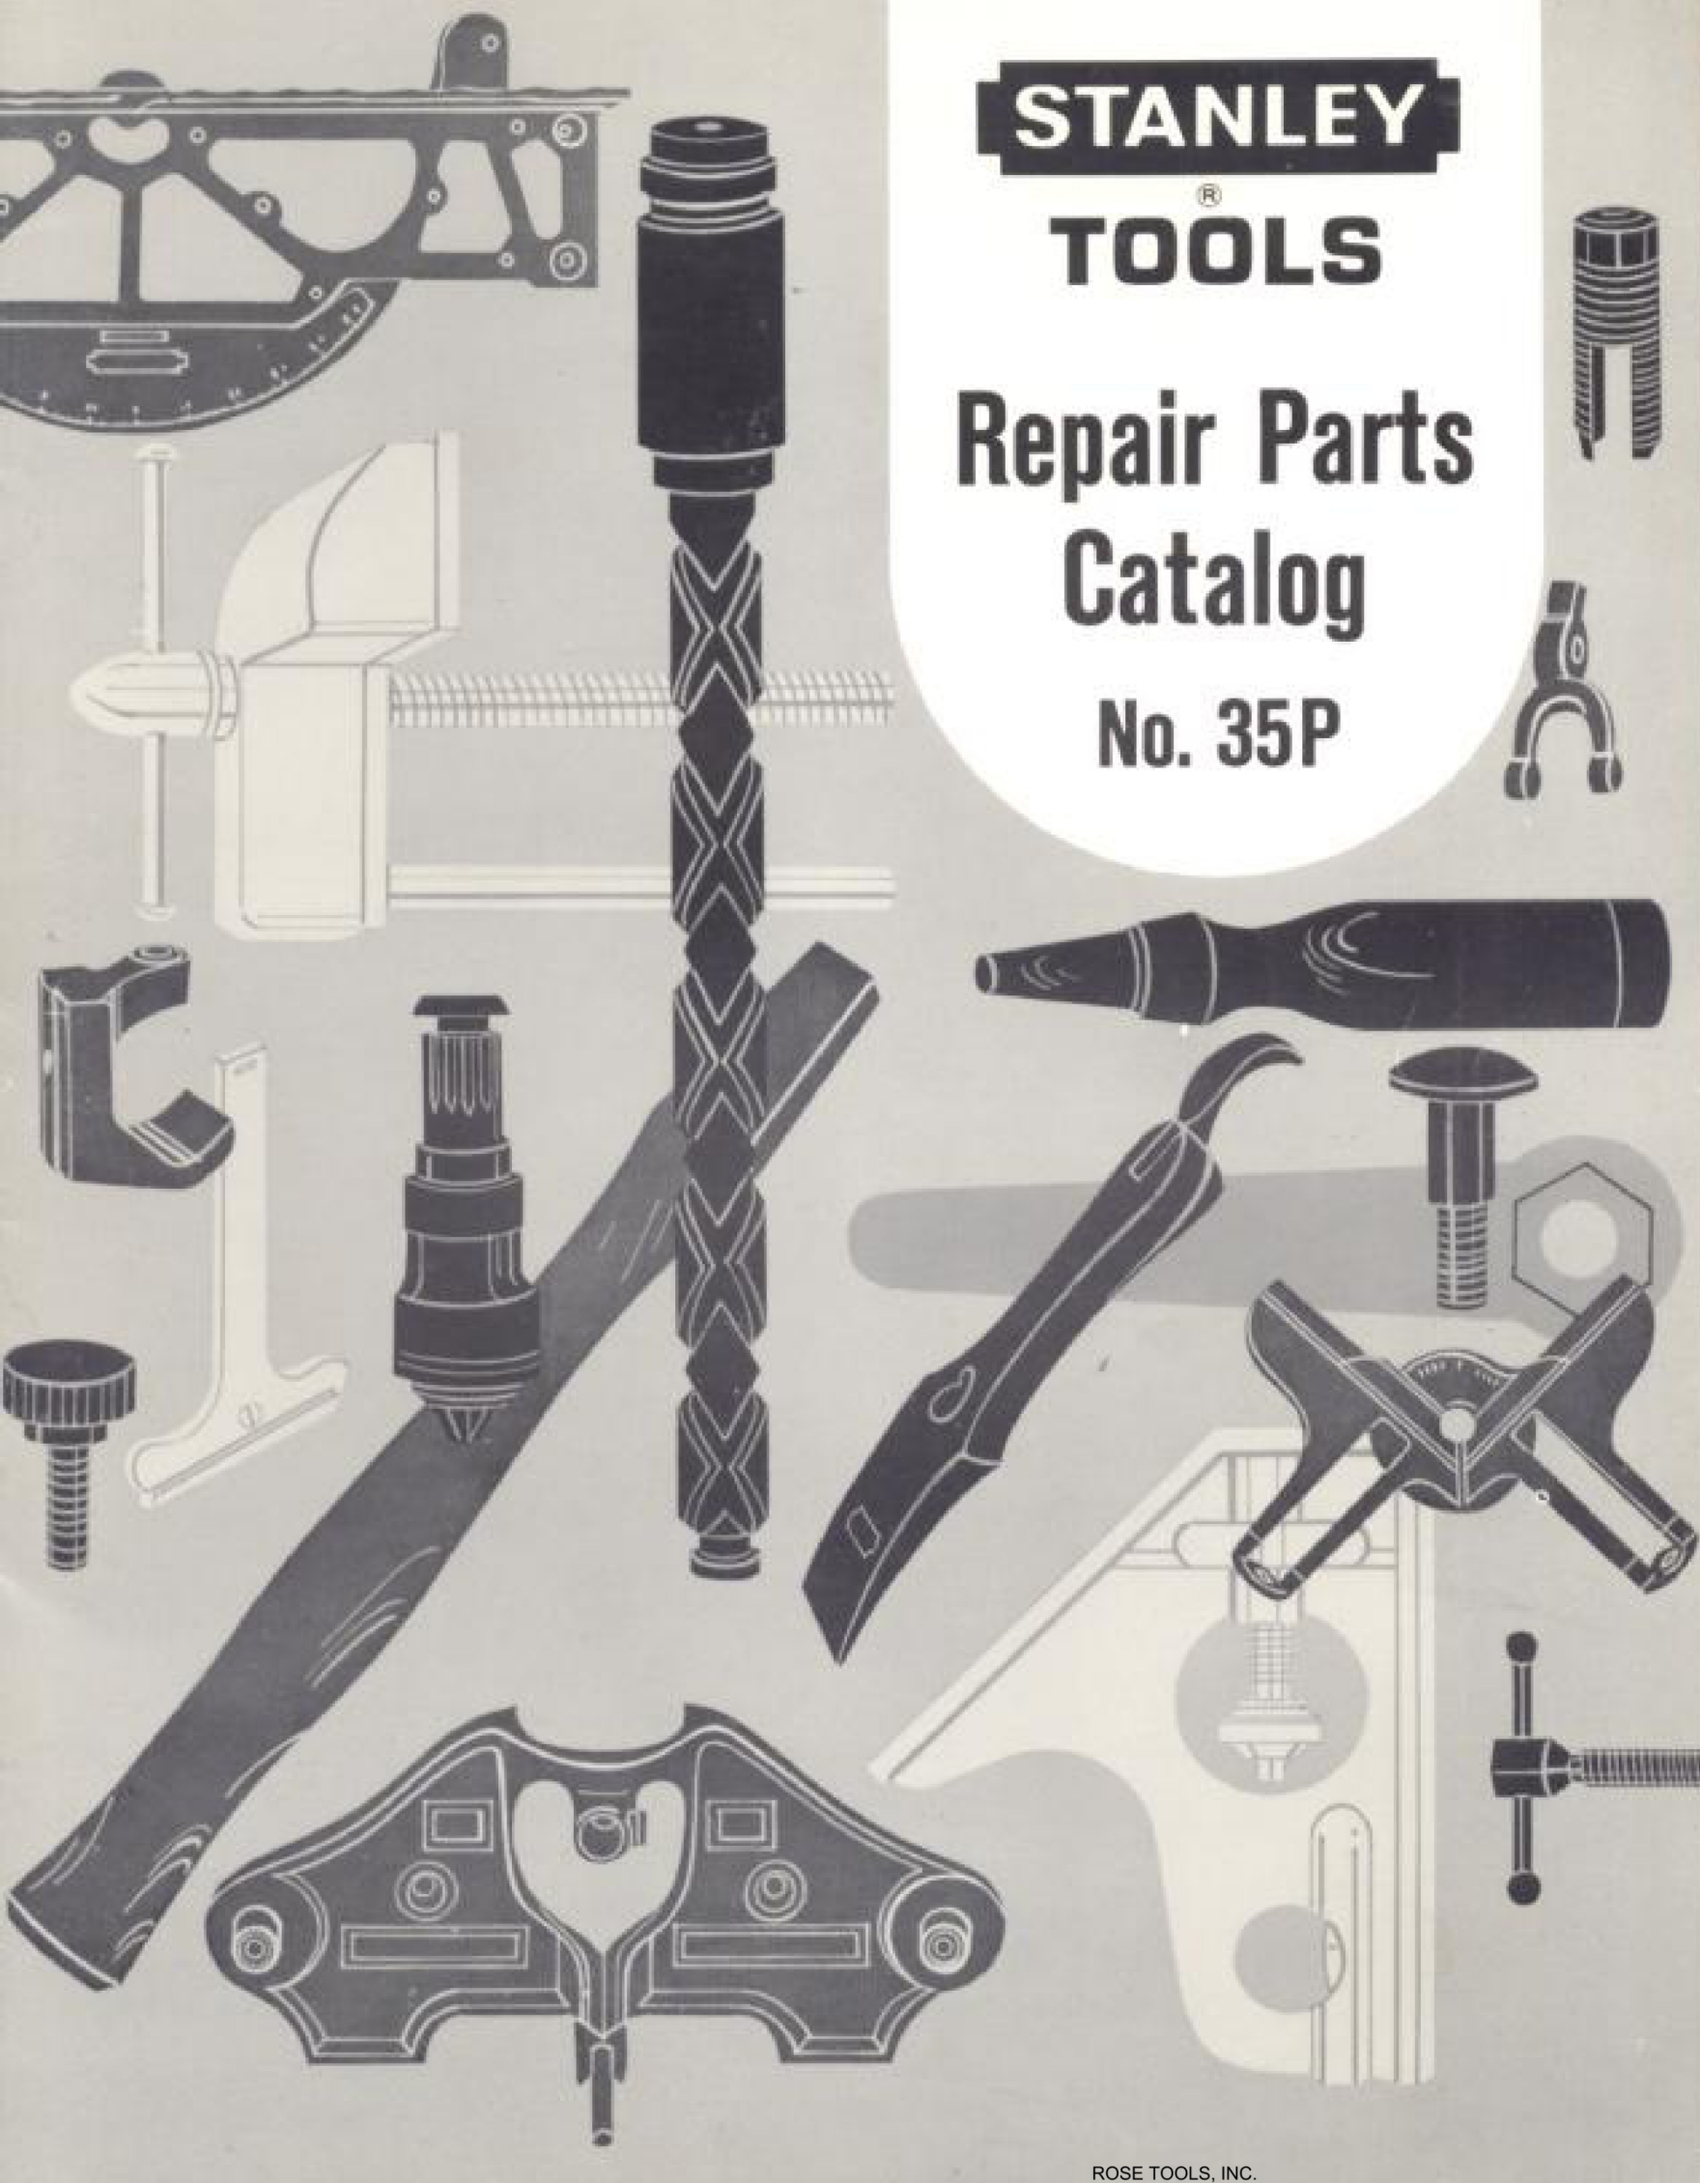
TOOLS

Repair Parts Catalog

No. 35P



ROSE TOOLS, INC.

This catalog is designed to help owners of Stanley Tools identify and order interchangeable repair parts that can be easily replaced without the aid of special tools or equipment. We recommend that the owner make his own repairs whenever it is possible and thereby save the expense of round trip transportation of tools in addition to the repair cost. When ordering, be sure to specify the part number and name, as well as the model number of the tool to be repaired.

Non-interchangeable parts, though shown, are not identified for ordering since these parts must be fitted at the factory. Prices of these non-interchangeable parts, and estimates on repairs will be furnished on request. When requesting estimates, please state clearly just what new parts are wanted, giving the model number of the tool and any other information that will help avoid error in filling the order.

Minimum charge is 25 cents net, which includes postage.

Our general catalog #34 illustrates and describes our complete line of Stanley Tools for artisans, craftsmen, homeowners and hobbyists, copies are available on request.

Tap Wrench	19
Vises, Machinists	17
Vises, Woodworkers	17-18

Parts for Stanley Bit Braces

All parts listed can be readily put into the Brace by the user. Other parts can be supplied if required, but should any piece be wanted that is not shown, it is better that the Brace be returned to the factory for repairs. Some parts having the same name differ in design in the different Braces. We show different cuts bearing the same number to illustrate the different designs. Heads and quills are shown in section to make difference of construction clear. In ordering, be sure to specify *number and name of part and number of Brace*. It will also help if you will include with your order a sketch or tracing of the part desired.

JAWS: Type G — Used on Nos. 811, 813, 921, 923, 923A, 984 and 993;
Type I — Used on Nos. 915, 916, 917, 925, 945, 1237 and 1250;
Type J (Rolled Finish) — Used on Nos. 1253, 1262, 965 and 965N.
Type G Special — Used on No. 1246.

MM13	Collar for Clamp Screw	.40
MM14	Hinge Screw and Nut	.25
MM15	Hinge Thumb Screw (Large)	.50
MM16	Ring Thumb Screw (Small)	.25

Replacement Plane Irons

The Single Irons of the same size are identical; thus a 2⅜ in. Single Iron fits all Planes that take a 2⅜ in. plane iron. The Cap Iron (which combined with Single Iron makes the Double Iron), however, is not the same in all cases on the Bailey and Circular Planes and is therefore not interchangeable. *Order Plane Irons by number. When ordering Cap only, be sure to give the number of the Plane.*

Single

No.	Inches	Used in Planes Nos.	List Each
S1⅜	1⅜	2	$2.10
S1¾	1¾	3, 5¼	2.10
S2	2	4, 5	2.10
